Green Space Coalition Opens 3-county Center

The Mon Valley Green Space Coalition, in a joint venture with the Mon River Trails Conservancy, has been awarded a grant for \$30,000 by the Claude Worthington Benedum Foundation. The grant is being used to establish a community-oriented center that will help a coalition of grass-roots organizations, local governments and businesses to develop and coordinate projects designed to improve and protect parks, trails, and other greenspaces in Monongalia, Marion, and Preston Counties, West Virginia.

Ella Belling, the Executive Director for the Parks and Trails Center has been writing grants, establishing partnerships with local government, researching models for sustainability, and developing relationships with funding organizations such as the Greater Morgantown Community Trust. She is assisting us reach our goals to increase the visibility, collaboration, efficiency, and effectiveness of our organization in the regional community of North Central West Virginia. Find out more about the Parks and Trails Center at www.greenspacecoalition.org.

Green Space Coalition Agency Endowment Fund

Consider helping us save for the future of green space in the Mon Valley. The Coalition recently started a Green Space Coalition Endowment Fund with the Greater Morgantown Community Trust. This fund will help establish long-term, sustained funding for our organization to achieve its missions. Once fully funded, the income from the fund will be used to develop, administer, and maintain green space projects in Marion, Monongalia and Preston Counties. You can earmark a donation on the Coalition's membership request or contact the GMCT directly by calling 304-296-3433 or email gmct@gmctfoundation.org.
